Subject: [NEDKCboard11-12] Happy Key Club Week!

Hello Alabama, Minn-Dak, and New England District boards!
I hope everyone has a great week, and I cannot wait to see the New England Board this weekend.

Speaking of board meetings, the International Board meeting minutes are now posted.

There are some changes to contests! http://keyclub.org/kcn/11-11-01/Key_Club_International_Board_meeting_minutes_posted.aspx

November is Prematurity Awareness Month-March of Dimes
Worldwide, almost 13 million babies are born prematurely each year. Those who survive often have lifelong struggles, including cerebral palsy, developmental delays, chronic lung disease and vision and hearing loss. In November, the March of Dimes focuses attention on premature birth, hoping to raise public awareness about the impact premature birth has on babies, families and society. The March of Dimes, as our partner in service, asks the Kiwanis family to spread the word on the serious problem of premature birth throughout November and especially on World Prematurity Day, November 17. What can your Key Club do this November to support March of Dimes? Add the March of Dimes message and logo to your club website and social media pages this month. Start recruiting for your March for Babies team for the spring fundraising walk. Educate yourself and your peers about the importance of healthy lifestyles using the teen2teen program. Read more about the partnership between the Kiwanis family of clubs and the March of Dimes on the Key Club website.

I hope everyone has a great Key Club Week!
-Lucy
